DEPARTMENT OF AUTOMOBILE ENGINEERING

TECHNICAL PPT PRESENTATION EVENT

GUIDE BOOK

*“Prepare with purpose,
present with confidence,
and inspire through
innovation.”*

**DRIVE
INNOVATION
BUILD
TOMORROW**

EVENT OVERVIEW

- A technical presentation event provides a platform for students to explore engineering topics, develop innovative ideas, and communicate their technical understanding through a structured presentation.

Participants will work on specified engineering topics, developing presentations that demonstrate technical knowledge, effective problem-solving approaches, innovation, and practical applications of engineering concepts.

CORE FOCUS AREAS

TECHNICAL KNOWLEDGE

Demonstrate clear understanding of the relevant engineering concepts and principles.

INNOVATION

Develop creative, original or improved approaches related to the given topic.

PROBLEM SOLVING

Analyze engineering challenges and present technically relevant approaches or solutions.

REAL-WORLD APPLICATION

Connect engineering concepts with practical challenges and applicable solutions.

VENUE

Venue will be updated on website.

TIME

Start from 10:50 AM

NOTE

Participants are requested to assemble at venue on or before 10:40 AM for a smooth commencement of the event.

Check [website](#) for event prize and registration fee details.

Presentation Themes

1

**AI and
Autonomous
Vehicle**

2

**Embedded Systems &
Electronics**

3

**Sustainable
Energy
Technology**

4

**Battery
Technology**

5

**Cybersecurity in
Automotive**

6

**Communication
Technology in EV**

PPT PRESENTATION REQUIREMENTS

TOPIC

- The topic must be related to any of the given event themes.
- Participants are free to choose a topic that interests them, as long as it aligns with the selected theme.

PPT STRUCTURE

The presentation should follow the general outline given below:

1

Title Slide

2

Introduction

3

Content Slides

(Which includes key points, discussion, innovation, applications, future scope etc.)

4

Conclusion

Minimum : 7 Slides | Maximum : 10 Slides

PRESENTATION GUIDELINES

- Keep the content clear, concise and well organized.
- Use relevant visuals, diagrams, charts or examples.
- Ensure the content is original and relevant to the chosen theme.
- Maintain a consistent and professional slide design.

IMPORTANT NOTE

Kindly share your PPT in .pptx format via **Google Form** before **October 5** by **10.00 AM**. The link is provided on the website.

PAPER PRESENTATION

RULES & GUIDELINES

1 TEAM & PARTICIPATION

- Participation can be individual or in a team of maximum 3 members.
- All participants must be currently enrolled students of the institution.
- Each participant/team can present only one paper.

2 PRESENTATION FORMAT

- The presentation must be technical and engineering-related.
- The presentation must be made using PowerPoint (PPT).
- Maximum presentation time: 7 minutes.
- A short Question & Answer session will follow the presentation.
- Participants must strictly adhere to the allotted time.

3 PAPER & CONTENT

- Participants must stay relevant to the given topic or choose a suitable approach based on the given problem statement.
- Content must be original and technically accurate.
- Proper references/sources should be mentioned wherever required.
- Plagiarized or copied content may lead to disqualification.

4 PRESENTATION GUIDELINES

- The PPT must contain a minimum of 7 slides and a maximum of 10 slides, including the front/cover page and conclusion.
- Participants should report to the venue before their scheduled presentation time.
- The PPT should be submitted/loaded as instructed by the organizers.
- Participants are responsible for ensuring that their PPT functions properly.
- Participants should clearly explain the problem, methodology, technical concepts, results/findings, and conclusion wherever applicable.

5 QUESTION & ANSWER

- A short Q&A session will be conducted after the presentation.
- Participants should answer questions clearly and confidently.
- Questions will be related to the technical content of the presentation.

6 GENERAL RULES

- Judges' decisions will be final and binding.
- Any form of misconduct or disruption will result in disqualification.
- The organizers reserve the right to modify the schedule or rules if necessary.
- Participants must maintain professional conduct throughout the event.

MAXIMUM PRESENTATION TIME
7 MINUTES

PPT
7 – 10 SLIDES
(INCLUDING FRONT PAGE & CONCLUSION)

SHORT Q&A SESSION
TO FOLLOW

MARK ALLOCATION & EVALUATION CRITERIA

TOTAL: 100 MARKS

Evaluation Criterion		Marks	What is Evaluated
	Problem Statement & Relevance	15 Marks	Clarity of the problem, significance, and relevance to engineering / real-world needs.
	Technical Content	20 Marks	Technical depth, accuracy, concepts, supporting evidence, and understanding.
	Methodology & Approach	10 Marks	Logical methodology, approach, procedures, tools, and justification.
	Innovation & Originality	10 Marks	Novelty, creativity, originality, and uniqueness.
	Quality of Results & Analysis	10 Marks	Quality of results, interpretation, analysis, findings, and conclusions.
	PPT Design & Organization	10 Marks	Visual clarity, organization, readability, consistency, diagrams/figures.
	Presentation Skills	15 Marks	Clarity, confidence, communication, time management, and engagement.
	Q&A	10 Marks	Accuracy, relevance, confidence, and clarity of responses.

TOTAL — 100 MARKS
