

SEE THE UNSEEN

"Look closer. Notice what others miss."

EVENT DESCRIPTION

Look around the college campus and find something ordinary that has an interesting hidden detail. Capture two connected photographs of the same subject: the first showing the full or normal view, and the second showing a close-up or different view that reveals something people may usually miss. The aim is to show how a simple subject can look different when you take a closer look.

HOW TO PARTICIPATE

- Choose an interesting place, object, scene, texture, pattern, shadow, or detail **inside the college campus**.
- Take **Photo 1** as the normal, full, or wider view of the subject.
- Take **Photo 2** as a close-up or different perspective that highlights a hidden or interesting detail.
- Make sure both photographs are clearly connected and show the same subject.
- Submit both photographs together as one entry before the event concludes.

OFFICIAL EVENT REGULATIONS

Team Size	Solo participant.
Theme	See the Unseen — find an ordinary subject and reveal an interesting detail through two connected photographs.
Location	All photographs must be taken inside the college campus.
Photography Device	Photographs must be taken using a mobile phone only. Both Android and iPhone are allowed. DSLR, mirrorless, digital, action, and other dedicated cameras are not permitted.
Number of Photos	Submit exactly 2 photographs of the same subject.
Photo 1	Full, normal, or wider view of the subject.
Photo 2	Close-up or different view showing a hidden or easily missed detail.
Authenticity	Only original photographs taken by the participant are allowed. Downloaded, AI-generated, fake, or misleading photographs are not permitted.
Editing	Basic adjustments such as cropping, brightness, and contrast are allowed. Heavy manipulation that changes the subject is not permitted.
Submission Deadline	Photographs must be submitted before the event concludes.
Judges' Decision	The judges' decision will be final and binding.

SUBMISSION CHECKLIST

- Exactly two photographs
- Same subject in both photographs

- Photo 1 shows the full / normal view
- Photo 2 shows the close-up / different view
- Both photographs were taken inside the college campus
- Photographs are original and taken by the participant
- Submission completed before the event concludes

MAKE THE ORDINARY WORTH A SECOND LOOK.

The goal is to make the viewer notice something they might otherwise miss.
